

CONVERDYN^{News} Wire – May 2005

An up-to-date information bulletin on the nuclear fuel cycle

Our Mission: We will be the premier provider of nuclear fuel cycle services with customer satisfaction as our primary focus – Unique, Innovative and Successful.

May 11, 2005

On May 24, 2005, an emergency response drill will be carried out at the Metropolis facility in coordination with the NRC. This routine drill will be conducted in conjunction with the relevant local authorities to assure the neighboring community that sufficient procedures and systems are in place at the plant to provide maximum safety and protection of the local citizens and the environment.

When available, results of the response drill will be made available on the ConverDyn web site, www.converdyn.com.

####

In order to keep our customers, suppliers and friends current on important timely topics that require immediate communication – we send out the ConverDyn^{News} Wire periodically. Comments and suggestions are welcomed as always.
