ConverDyn Completes ISO 9001:2008 Certification

ConverDyn is pleased to announce the successful completion of the certification process by BSI (British Standards Institution) regarding compliance of the ConverDyn Offices in Greenwood Village, Colorado to the ISO 9001:2008 Quality Management System Standard. ISO 9001 certification verifies the company's commitment to delivering quality processes, product, and continuous improvement to our customers. ConverDyn successfully completed a multi-stage audit process during the first four months of 2014 and received official notice of certification on May 12, 2014.

The audit areas included:

- Contract Administration
- Marketing and Contracting Processes
- Transportation and Logistics
- Supplier Selection and Audit
- Management Commitment to Quality

ConverDyn is proud to join the Metropolis Works Facility in ISO 9001:2008 compliance and is excited to realize the benefits that certification of both locations will provide.
