UPDATE ON METROPOLIS UF₆ OPERATIONS

The Metropolis Works Conversion Facility (MTW) recently concluded its scheduled annual maintenance shutdown and resumed routine operations two days ahead of schedule. All objectives of the shutdown were completed successfully. The current rate of production supports the adjusted delivery expectations for 2005 worked out between ConverDyn and its customers. The plant should further increase production at a steady pace over the next several months.

ConverDyn will continue to provide timely information on the status of the Metropolis facility. ConverDyn remains extremely appreciative of the flexibility and support extended by our utility customers, as well as similar efforts and cooperation from all the enrichment facilities.
